

SNOW & ICE MANAGEMENT EQUIPMENT

**SPREADERS
SPRAYERS
WINTER TOOLS
DE-ICERS**

Introduction

Winter often reminds us of spinning car wheels of slipping and sliding our way around, closed airports, blocked roads and busy A & E departments.

These conditions highlight the need for winter preparation, the application of salts and ice melts and the need for snow management products. DMMP has made the commitment to deliver the highest quality snow and ice control equipment in the industry.

Our range of high quality, commercial use spreaders, sprayers and tools are predominantly built in the USA Snow Belt, where winters are harsher and snow accumulation guaranteed.

Our Winter brochure features a wide range of spreaders, sprayers and tools to meet individual requirements.

Contents

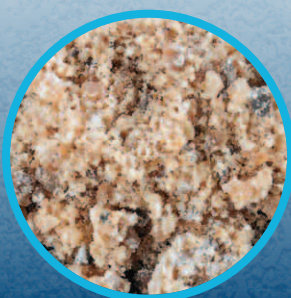

3	High Output Pedestrian Spreaders
4-5	Powered Mounted Spreaders
6	Mounted Spreader Accessories
7	Salt Spreaders
8-9	Pedestrian Spreaders
10	Hand Operated Spreaders & Accessories
11-12	Sprayers
13-15	Winter Tools

GRIT

Grit has little ice or snow melting properties and only provides grip for vehicles. Often bagged and has a sandy texture. Very difficult to spread with any pedestrian spreader due to high moisture content and texture.

Spreadability
- Average when dry

ROAD SALT

Road Salt has a gritty appearance but it is not "grit". The salt works by lowering the freezing point of moisture on the road surface and needs to be crushed by the traffic and dissolve to be effective. Is less effective below -5°C and has virtually no effect below -10°C.

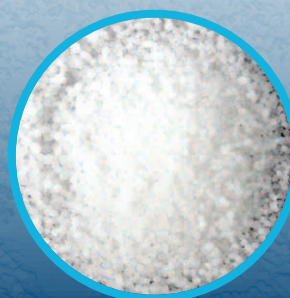

Spreadability
- Good when dry

PROCESSED SALTS

Processed Salts white de-icing salt is of higher purity and does not contain a high percentage of insoluble impurities that create a muddy sludge associated with road salt and grit. Processed salt is clean and leaves little or no residue on the ground.

Spreadability
- Excellent when dry

ICE MELTS

Designed and manufactured for effective performance at a greater range of temperatures, Ice melt products are free flowing and consistent in appearance and often non corrosive to spreading equipment.

Spreadability
- Excellent

EarthWay EV-N-SPRED® 2040PI-Plus HIGH OUTPUT

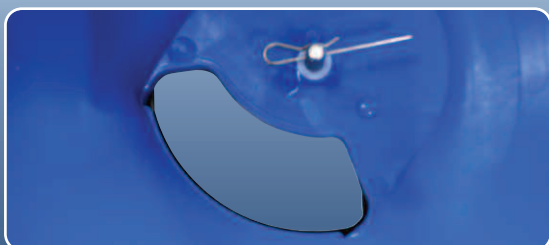

Specifically designed for spreading ice melt, rock salt, dry sand and other high volume application products and is ideal for smaller areas of use.

- 22cm pneumatic tyres
- Fully assembled
- Hopper capacity of 30kg

Vibrator Kit

Vibrator provides on demand agitation to keep material flowing freely. Fitted to the outside of the hopper and controlled by the operator remotely. Fitted as standard on the S575P and S1075P and is available as an accessory for the BLS240P.

Flow Gate

The flow gate control accessory can be fitted to all Magnum spreaders and allows the user to set the flow rate based on the material being spread providing flexibility and control.

Mounting Systems Forklift Mount

This forklift attachment is compatible with both the Magnum BLS240P, S575P and the S1075P

- **Easy to attach to forks**
- **Can remain attached to the spreader for easy linkage**

This attachment provides versatility of forklifts throughout the winter period when ice or snow is on the ground. Ideal for distribution centres, warehouses, dockyards and builder's merchant yards across the UK.

Mounting Systems Tractor Mount

3 point linkage for tractors and compact tractors enables the Magnum range to be fitted to tractors for easy and quick setup and delivery of salt and deicers. Ideal for contractors and large campus sites.

Mounting Systems Magnum Trailer

The Magnum trailer is specifically designed for all three Magnum spreaders, BLS240P, S575P and S1075P to be mounted quickly and easily.

- **Suspension fitted as standard**
- **Lockable tow hitch**
- **Road Kit accessory available includes lighting board and fixings**
- **Magnum Road Kit available**

Mounting Systems Motor Guard and Stand

Helps protect the motor during use and serves as a storage stand when the spreader is removed from the vehicle. For Summer storage

Magnum Drop Spreader

Ideal for spreading material on walkways, paths, and anywhere you need exact material placement. Hopper and major components are constructed using corrosion resistant stainless steel. Spreads salt, sand and 50/50 mixtures of sand and salt.

- Stainless steel
- Inverted V hopper shape for even flow
- Adjustable material flow
- Salt crusher
- Winter tyres
- Spreader cover included

EarthWay EV-N-SPRED® Deflector Kits

EarthWay EV-N-SPRED® spreaders can be fitted with deflector kits which protect flower beds and gardens from receiving unwanted ice melt. The deflector kit negates the use of a drop spreader turning the EarthWay EV-N-SPRED® into a dual use spreader. Clear, see through hopper covers are available for all EarthWay models and are easy to fit to the spreaders. The Hopper covers and deflector kits fit easily onto the spreader and can be removed when necessary.

Polar Tough Snow Plough

This bi-directional snow plough makes it simple and easy to clear your driveway and pavements in half the time with half the effort needed for conventional shovelling. Helps manage snow accumulation.

- Reduces labour costs compared to a shovel.
- Saves time.
- Blade Dimensions 965 mm Width x 200 mm Height

BustR Snow Shovel

Shovels snow, scrapes and chips ice

- Deep cavity blade with galvanised steel wearstrip, designed to chip away ice
- Ergo D-Grip with cushion grip on shaft for comfort
- Blade Measures - 90 x (H) x 760 (W) x 320mm (D)
- Best quality snow shovel available

Penguin SnoBoss®

A specially designed, ergonomic snow shovel for easy use and shovelling significant amounts of snow easy and effortlessly.

- Light and easy to use
- Shaped handle and scoop
- Blade Width 504 mm

36" Polar Tuff Scraper

**137cm Fiberglass Handle with Poly D Grip
30cm x 91cm Blade Size**

Polar Tuff scrapers are excellent for fast cleanup during light snow, covers a large area quickly. Very durable blade with fiberglass handle and oversized D-grip for easy handling. Ideal when maintaining a pavement throughout the day for the safety of customers or school children, covers a large area in a short amount of time.

18" PolyShovel

**91cm Wooden Handle with Poly D Grip
38cm x 46cm Blade Size**

The poly snow shovel features durable composite blades which resist cracking or breaking in cold temperatures. The ideal shovel for when the snow is heavy.

MegaMovR

**76cm wide x 56cm deep poly blade with wear strip
Steel handle with cushion grip
54" overall length**

The MegaMovR shifts snow quickly and efficiently with its large scoop design.

7" ICE Scraper

This scraper is a sturdy tool used to scrape ice from sidewalks, driveways and other floor surfaces. Use prior to shoveling to help preserve your snow shovel blade.

- 17.5cm x 12cm blade
- Welded Shank
- 120 cm long handle providing strength and durability
- Multi-purpose tool that can be used year round

Car Combi & Traction Aids

Be prepared! The AutoBoss is bundled with the Traction Aid making it the ultimate snow emergency combo for getting unstuck in your winter travels. The AutoBoss's patented design is adjustable and clears snow from hard to reach places. It offers simple extension and retraction, multiple hand placement options and its sleek, compact profile makes for easy storage. While the Traction Aid provides attachable ramps to give your tires the traction it needs to get out of any stuck situation.

- All cold weather, durable poly construction
- Both tools extend for strength and durability
- Compact design for easy storage
